Reissue Applications

This application is objected to under 37 CFR 1.172(a) as the assignee has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The assignee's ownership interest is established by:

(a) filing in the reissue application evidence of a chain of title from the original owner to the assignee, or

(b) specifying in the record of the reissue application where such evidence is recorded in the Office (e.g., reel and frame number, etc.).

The submission with respect to (a) and (b) to establish ownership must be signed by a party authorized to act on behalf of the assignee. See MPEP § 1410.01.

An appropriate paper satisfying the requirements of 37 CFR 3.73 must be submitted in reply to this Office action.

Although the Certificate under 3.73(b) is signed, it does not include the name and the title of the person signing the certificate. Additionally, the assignment papers have not been notarized and are therefore incomplete.

Applicant has submitted an offer to surrender original Patent. Applicant should note that the original Patent must be surrendered prior to allowance. Applicant is

Art Unit: 2672

requested to submit the original Patent with the next communication to expedite the prosecution of the application.

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error, which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The Applicant has not identify any specific changes or amendments to the claims. If new claims are presented, their differences from the original claims must be pointed out.

Claims 1-48 are rejected as being based upon a defective reissue Oath/Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Oath/Declaration is set forth in the discussion above in this Office action.

Please note that every reference listed in the Original Patent must be cited either on a PTO-892 or PTO-1449 prior to allowance.
